Additional Comments to the Airport Construction and Development Priority Program
Funded 2018-2019,
Unfunded Program 2019-2020, Unfunded Program 2020-2021, and
Unfunded Program 2021-2023.

The actual project cost, on a project by project basis, may be below or above the estimate. However, the total amount approved for the Airport Construction and Development Priority Program, for fiscal year 2018-2019, will not be exceeded.

In accordance with Act 451, 1989 regular Session, paragraph 803 (B), which states "...if governing authority of an airport authority, district, parish or of any local unit of government obtains ninety percent or more funding for an airport, or for an airport project, from federal sources or from sources other than state funds, the legislature shall give priority to funding the remaining amount necessary for the airport or for the airport project, even if the project is not on the priority list of projects."

The available funds will be distributed in the following order:

- 1) Projects in the FY 2018-2019 Airport Construction and Development Priority Program are funded directly from the Transportation Trust Fund that is allocated in FY 2018-2019 to the Airport Construction and Development Priority Program.
- 2) Any other project or eligible enhancements to previously approved projects which receives 90% funding from any source, other than another State source, but which has not been processed and prioritized and is not in either the FY 2018-2019 funded or the FY 2019-2020 and 2020-2021 unfunded portion of the Airport Construction and Development Priority Program.
- 3) The General Aviation and Reliever Airports Maintenance Grant Program shall be funded in accordance with the conditions specified in Chapter 8 of Title 2 of the Louisiana Revised Statutes.
- 4) In the event that additional funds become available, through special appropriations, underruns, project cancellations, or otherwise, certain unfunded, state only projects required for safety or infrastructure preservation at airports not eligible for Federal Aviation Administration (FAA) Airport Improvement Program (AIP) funding may be moved from the Unfunded FY 2019-2020, Unfunded FY 2020-2021, Unfunded FY 2021-2022 Airport Construction and Development Priority Program to the FY 2018-2019 Airport Construction and Development Priority Program (funded list).
- 5) Aviation Trust Funds will not be used as a match for projects funded with Passenger Facility Charges (PFC) as PFCs can be approved by the FAA at 100% of the project cost.
